### Description

Stage 1 is a bolt-on Turbosystem for your MK4 .:R32 Golf. With a C2Motorsports turbo kit, you receive everything you need in one complete package. This kit has been designed with flexibility for the future. When you are ready for MORE power, the kit is fully upgradable to Stage 2. By adding one of our lowered CR head spacer, ARP head studs, and C2 Stage 2 ECU software. From that stage it is an easy upgrade to Stage 3 by adding the C2 QuickFlow Short Runner Intake (SRI), fuel pump and Stage 3 software. Whichever level of power that you need, C2 has a kit for you and the flexibility to GROW.
